Impostor Syndrome

Impostor Syndrome

Imposter syndrome can be defined as a collection of feelings of inadequacy that persist despite evident success. 'Imposters' suffer from chronic self-doubt and a sense of intellectual fraudulence that override any feelings of success or external proof of their competence. They seem unable to internalize their accomplishments, however successful they are in their field

Is Saul also among the prophets?"

13 So Samuel took the horn of oil and anointed him in the presence of his brothers, and from that day on the Spirit of the Lord came powerfully upon David. Samuel then went to Ramah.

14 Now the Spirit of the Lord had departed from Saul, and an evil[a] spirit from the Lord tormented him.
